SUMMARY

Python and Django backend developer with hands-on experience in building secure, scalable web applications. Strong knowledge of REST APIs, authentication mechanisms, and database design with exposure to machine learning and computer vision projects.. Passionate about backend engineering and writing clean, maintainable code for real-world systems.

EDUCATION

Bachelor of Engineering in Computer Science
University College of Engineering, Villupuram
Oct 2022 - Apr 2026.

TECHNICAL SKILLS

- Languages: Python
- Frameworks: Django, Django REST Framework
- Databases: MySQL, PostgreSQL
- Backend: REST APIs, JWT Authentication
- Tools: Git, GitHub.

PROJECTS

Browsing Center Management System

Django, React, PostgreSQL

- Developed a role-based CSC management system for daily service transactions.
- Enabled managers to monitor transactions and reports.
- Implemented JWT and Google OAuth authentication.

IPL Prediction

Python, HTML, CSS

- Built a Python-based web application to predict IPL match winners and dynamically update points tables based on user inputs.
- Dynamically updated points table based on predictions.

Railway Track Obstacle Detection

Python, YOLO (Ultralytics), OpenCV, Streamlit

- Built a railway system using dual YOLO models for track segmentation and object detection.
- Deployed a real-time Streamlit web app with visual and audio alerts for track safety monitoring.

CERTIFICATIONS

Python Course on Besant Technology (AUG 2025 - SEP 2025).
Data Analytics: Real-World Hands-on Project.
